Interaction design meets code. I am a product designer interested in uncovering new avenues of interaction through interdisciplinary experiments

WORK EXPERIENCE

Web Designer & Developer CIID.dk

Co-designed and solely developed the refreshed website using Webflow, implementing a custom CMS to manage dynamic content (news, careers, pop-up schools, and community profiles).

(Freelance Contract) December 2022–Present

Product Designer CloudAEye

Pioneered the development of 2 B2B SaaS products : Test RCA and Code Review from 0 to 1, driving rapid user adoption (up 30%) for CloudAEye sign-ups.

(Freelance Contract) February 2023–December 2024

Senior Software Engineer Samsung

Engineered the VESPM and CBRS modules in 5G RAN architecture with C++, applying firmware optimizations to minimize CPU usage

August 2017–June 2021
